

# EQUIVIS HE

Highly energy-efficient hydraulic fluid

## EQUIVIS HE High Efficiency

is a high-end lubricant that meets demanding needs for energy efficiency and durability over time.

### CUSTOMER BENEFITS

- > Up to 5% higher yield from equipment
- > Broader operating temperature range
- > Extended lifetime

## OPTIMAL PERFORMANCE

- ◆ EQUIVIS HE
- ◆ Standard hydraulic oil (HV)

*EQUIVIS HE is available in grades from 32 to 68.*

**TOTAL**

## OPTIMAL USAGE TEMPERATURE WINDOW

### STANDARDS AND APPROVALS

- ISO 11158, HV
- DIN 51524-3, HVLP
- DENISON HF0, HF1, HF2

➤ **EQUIVIS HE** is based on technology that enables it to operate in a **broad temperature range**. Its performance, characteristics, and viscosity adapt equally well to low and high temperature applications.

“ In a hydraulic operating system, the concept of efficiency is closely related to that of the pump, which consumes a major part of overall energy. The pump transforms mechanical power (flow and pressure), whose efficiency is defined by volume and hydromechanical performance. EQUIVIS HE contributes to improving energy efficiency by optimizing these parameters. ”

Pascal  
Total product manager

## OPTIMAL EFFICIENCY

➤ **EQUIVIS HE maximizes performance in hydraulic operating systems**. Its thermal and mechanical stability helps to maintain ideal conditions for optimal operation.

**DynaVis**  
More Power • Less Fuel

**DYNAVIS® technology** makes it possible to formulate energy-saving, multi-grade hydraulic lubricants. **EQUIVIS HE** uses this innovative additive technology in optimized formulas.

DYNAVIS® is a registered trademark of Evonik Oil Additives GmbH.
